

## 71014 Lymington

Please follow the instructions below to ensure the correct artwork format for the panel.

- Panels are manufactured exact size forming the '**visible area**'. For example an A2 panel will be manufactured 594x420mm.
- However any important text & images should fit with 5mm smaller all round than the '**visible area**'. For example the A2 panel as above would have a 'safe area' of 584x410mm.
- Any background colour/image should bleed out to the outside area of the '**finished area**'.
- Note the Rebate area which will be covered by the posts and avoid any text/images here.
- The sides of the panel will be coated to a RAL Classic colour of your choice.

Panel size	Safe area (mm)	Visible/ Finished area (mm)	Text	Font size (pt)
A4	287 x 200	297 x 210	Header	89
A3	410 x 287	420 x 297	Stand first	28
