**Create booths, waiting areas, walkways quickly and easily with curtains and temporary flooring.**

**Use these modular Screen to create discreet and private booths, reception areas and walkways. Link them together in multiple configurations to suit your layout requirements and deploy them rapidly just where they are needed.**

- Can be extended and altered as required
- Available with clear, translucent or opaque panels
- Custom sizes and design proposals available
- Weighted bases for stability or locking castors for mobility
- Sterile cubicle privacy curtain available
- Easily transform a space with freestanding units
- Easy storage
- Manufactured in the UK & readily available

**1. Rapidly Deployable.**

The wheeled base option with 4 locking easy-roll castors and light-weight frame can be quickly set up to divide up waiting rooms, vac booths and walk ways.

**2. Modular.**

Expand and shrink the system as required by simply adding and taking away panels. With a standard stock size, everything fits together in almost any configuration in straight runs or right angles.

**3. Installation Available.**

Nationwide installation available by experienced fitters. Discuss your requirements with the team.
